Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 06 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cold with wintry showers continuing. Widespread frost overnight.

Today:
A mostly cloudy start with showers continuing to spread in from the North Sea, occasionally wintry, mainly over the western hills. Showers becoming less frequent and lighter in the afternoon, with clearer skies developing though still remaining cold. Maximum temperature 3 deg C (37 deg F).

Tonight:
Becoming largely dry and clear during the evening, allowing a moderate frost to develop. Cloudier with rain, sleet and snow moving south later in the night, turning icy in places. Minimum temperature -5 deg C (23 deg F).

Thursday:
Rain, sleet and snow clearing south, followed by a dry afternoon with plenty of sunshine though feeling bitterly cold in the wind. Widespread frost developing overnight. Maximum temperature 3 deg C (37 deg F).

Outlook for Friday to Sunday:
Bitterly cold with sunny spells and coastal wintry showers on Friday. Sharp frost and hazy sunshine on Saturday, cloudier later. Less cold on Sunday, dry with variable amounts of cloud.
